## Wednesday Challenge Form

Group Members: Elisabeth, mason, evan,  
raul, jaden, malik

Problem Statement: make the closest thing you  
Can to a 90 degree angle with 3 straws

Approach: we first thought about how we  
Could do it. We got the three straws and put  
2 together in a right angle then put another  
Straw attaching the two pieces

Solution: we made a right angle then attached  
The third straw to the other two

Lessons Learned: try to be as precise as you can
